***'Bloodlines that will improve your  
herd quality & your bottom line'***

# Welcome to the 2024 Medlyn Angus Sale

## **ALSO USING THE SERVICES OF AUCTION PLUS**

This year there will be 40 pedigree angus bulls offered at auction on June 20th. Over the last 39 years we have been blending the genetics of AI sires, home bred sires plus selected sires purchased from a few performance based studs to compliment the genetics contained within our self replacing female herd. We are focused on breeding cattle that are profitable, fertile and to suit a wide range of end producers. ie the cow/calf producer, the backgrounder, the feeder and finally after the processor a tender eating experience for the beef consumer. Our aim is to produce an animal that has plenty of red meat with improved eating quality and tenderness for the beef consumer, our end recipient. The genetics we use are designed to deliver live calves that grow out quickly to meet the weaner market, but then continue to add kgs to meet all other market specifications.

### ***At Medlyn we select sires that have:***

1. Lower birth weight
2. Above average milk figure
3. A positive EMA figure
4. A positive RBY figure
5. A positive IMF % figure
6. A structurally correct animal that is able to perform in all pasture situations.

### ***The bulls we are offering have been:***

1. Fully vaccinated with 7/1
2. Vaccinated vibrio
3. Vaccinated 3 day sickness
4. Blooded with 3 germ vaccine (tick fever)
5. They have all tested negative to the pestivirus antigen
6. They will be semen and morphology tested just prior to the sale.

They have been handled using bikes, horses and dogs in accordance with low stress stock handling principles.

This year we have sons of Texas Moe R728, a well grown young sire purchased from Texas Angus, initially as a back up sire after the AI programme in our heifer herd. He displayed CW + 66 , large EMA +8.7 and positive figures for both RBY & IMF. Our heifers had no problems with calving plus these Texas genetics provided a complete outcross into our herd. His progeny are very quiet and easy to handle.

Our tried and predictable sires are also represented in the line up, Baldrige Command, Varilex Geddes, Bubs Southern Charm, JMB Traction, Aberdeen Estate AHWJ6, Clunie Range NBHM528. These represent sires bringing tremendous bodies with thickness, along with calving ease Progeny are docile and structurally sound. Their daughters are in production and should cross well with Texas genetics plus the new AI sires that we have used for this year.

***New sires are represented by:***

1. Sitz Stella 726D (low birth weight, CW +70, EMA +13, IMF +1.3)
2. Raven Step Up F447 (low birth weight +1.3, high growth, EMA + 6.9, positive RBY and IMF)
3. Mogck Specialist 98 (low birth weight +1.3, very high growth. Positive IMF, structurally correct)

Again we look forward to seeing you our sale day in June.

John, Ellen and Rodney Gibson

## Sale Information

### **DIRECTIONS**

PRIMEX Exhibition Centre, Casino NSW, starting at 11am.

### **GST**

GST is to be added onto the purchase price at the fall of the auctioneer's hammer. You will be invoiced purchased price plus GST.

### **REBATE**

#### **2% agents rebate to agents who:-**

- Introduce buyers in writing at least 24hrs prior to sale
- Settle accounts within 7 days.

#### **3% agents rebate to agents who:-**

- Introduce buyers in writing at least 24hrs prior to sale
- Accompany client to the sale
- Settle accounts within 7 days

### **INSPECTION**

Bulls may be inspected prior to the Sale by contacting vendors or selling agents. Cattle will be available for inspection from 9am on sale day.

### **INSURANCE**

We recommend bulls are insured against injury and death.

### **REFRESHMENTS**

Refreshments will be available at the sale.

### **AUCTIONSPLUS**

The sale will be interfaced with AuctionsPlus. To register visit [www.auctionsplus.com.au](http://www.auctionsplus.com.au) prior to the sale.

### **BRINGING YOUR NEW BULL HOME**

When the bull or bulls arrive home, unload them at the yards into a group of house cows, steers or herd cows. Never jump them from the back of a truck directly into a paddock—it may be the last time you see them. Bulls from different origins should be put into separate yards with other cattle for company. Provide hay and water, then leave them alone until the next morning.

### **MATING NEW YOUNG BULLS**

Newly purchased young bulls should not be placed with older herd bulls for multiple-sire joining. The older, dominant bull will not allow the young bulls to work, and

will knock them around while keeping them away from the cows. Use new bulls in either single-sire groups or with young bulls their own age. If a number of young bulls are to be used together, run them together for a few weeks before joining starts. They sort out their pecking order quickly and have few problems later. When the young bulls are working, inspect them regularly and closely.

## BREED AVERAGE EBVS

The breed average EBVs below represent the average EBVs of all 2021 drop Australian Angus and Angus-influenced seedstock animals analysed in the Mid May 2023 TransTasman Angus Cattle Evaluation.

	CED	CEM	GL	BW	200D	400D	600D	MCW
	<b>+1.7</b>	<b>+2.8</b>	<b>-4.4</b>	<b>+4.0</b>	<b>+51</b>	<b>+92</b>	<b>+119</b>	<b>+102</b>
MILK	SS	DC	CWT	EMA	RIB	RUMP	RBV	IMF
<b>+17</b>	<b>+2.2</b>	<b>-4.6</b>	<b>+67</b>	<b>+6.4</b>	<b>-0.1</b>	<b>-0.3</b>	<b>+0.5</b>	<b>+2.3</b>

## PARENT VERIFICATION SUFFIXES

The suffix displayed at the end of each animal's name indicates the DNA parentage verification that has been conducted by Angus Australia.

PV : both parents have been verified by DNA

SV : the sire has been verified by DNA

DV : the dam has been verified by DNA

# : DNA verification has not been conducted

E : DNA verification has identified that the sire and/or dam may possibly be incorrect, but this can-not be confirmed conclusively.

## DISCLAIMER

The vendors, agents and their representatives accept no liability for accidents that may occur to any person attending the sale. Visitors enter the cattle pens at their own risk. Children must not enter the yards. While all care has been taken in the preparation of this sale catalogue, vendors and agents accepts no responsibility for any errors or omissions contained in this publication.

## ATTENTION BUYER

Animal details included in this catalogue, including but not limited to pedigree, DNA information, Estimated Breeding Values (EBVs) and Index values, are based on information provided by the breeder or owner of the animal. Whilst all reasonable care has been taken to ensure that the information provided in this catalogue was correct at the time of publication, Angus Australia will assume no responsibility for the accuracy or completeness of the information, nor for the outcome (including consequential loss) of any action taken based on this information.
