Welcome

Welcome.....

to our 4th off-property, under the hammer, bull sale at the Monto Saleyards. We have set the sale a month later this year. We elected to do this due to the fantastic season which hadn't allowed us to return the bulls home (across the flooded Burnett River) in time for preparation for our preferred August sale date.

We're proud to present our 2022 selection of Charbray, Charolais and both Grey and Red Brahman bulls.

Our 2022 sale team includes Charbray bulls of predominantly horned and polled phenotype and genotype. There are four clean polled Charolais bulls. And we are also presenting one clean polled Limousin bull. In the Brahmans we are offering some of the last grey bulls by our recently deceased impact sire Whitaker Mr Armani. And to close the sale we offer two Red Brahman bulls with industry relevance.

Again, we're going the extra mile, providing as many scans and measurements as possible (including semen morphology) so you have all the information required to assist in selecting the bull most suited to your operation.

Whilst we enjoy presenting these bulls fully at sale, it should be noted they have not been pampered their entire life. They are raised in forest paddock conditions and following weaning fend for themselves on river country until their sale preparation begins. Their prep is with a high roughage total mixed ration including a silage base. They are most certainly not green crop fed at any point in their lives. This style of preparation has helped us receive feedback stating our bulls had "held up" under trying seasonal conditions.

This year KellCo Rural Agencies will handle our sale. We've personally and professionally had a long and valued association with co-principal Mr Andrew Cavanagh and given their acquisition of the Monto Saleyards consider it fitting for KellCo to assist in taking our sale forward. By placing the sale local to our client base we endeavour to allow our clients to access quality bulls at affordable prices and without the associated costs of major travel and accommodation to attend other sales. Also, the bulls will be presented tick free and we'll be assisting successful buyers to get their new bulls home.

Those who purchase on the day will have an added bonus to gain entry in the draw for a bottle of our very own signature premium blended "Burnett Park" Bundaberg rum. Every lot sold will gain a rum entry, so multiple bull buyers will have multiple chances to win.

Of course we're again providing complimentary smoko and BBQ lunch for our supporting clientele in a warm and friendly "sale day out" atmosphere.

We appreciate your support and wish you well with your purchases.

Sincere thanks for your valued support from Clint & Robyn.

Sale Information

Whitaker Brahman Charbray Charolais

Whitaker Brahmans, Charbray and Charolais is conducted by principals Clint and Robyn Whitaker.

With the home base located at “Burnett Park” on the magnificent Burnett River, on the outskirts of Mundubbera, the family also runs other holdings located in the beautiful Hollywell district at Eidsvold and its main breeding enterprise at “Cosland” in the historic Abercorn district.

The Brahman breed has traditionally underpinned the entire operation and stems from Clint’s first introduction to the breed many years ago whilst holidaying as a teenager at a prominent Burnett Region stud. On the other hand, Robyn had a history of stud show animals and her grandfather had shown at the Ekka for 49 years straight.

In short Clint and Robyn were fortunate to access Grey Brahman genetics from a foundation stud dispersal and later to secure Red Brahman genetics that included the birth of “Whitaker Maggie” on the day of delivery. “Maggie” became the matriarch of the Whitaker Red Brahman herd winning the Australian Brahman Breeders Association Cow of the Year on three consecutive occasions and was indoctrinated into the Brahman Breed’s Register of Renown. Since then they have further expanded the Red herd with the purchase of a highly fertile and productive, strongly polled stud herd from an exiting studmaster.

For the past 20 yrs the Whitaker’s have enthusiastically progressed through the world of advanced genetical gain with their preferred medium of In-Vitro Fertilisation (IVF) having been extensively used throughout their Red and Grey Brahman herds.

During this period they included embryo transfer into their Charolais genetics as the Whitaker’s looked to advance their Charolais herd. Whitaker Charolais secured the Australian semen rights to the highly acclaimed Canadian Charolais super bull “CML Encore 4Y” and has used this polled bull along with others to develop their Charolais herd.

Whilst demand for polled cattle is rapidly growing, and the Whitaker’s see the benefits of such and provide to meet market demands, they also are very aware growth and carcass weight is heavily associated to horned genetics. So they try to keep a balanced approach to the polled equation and produce for all market requirements.

The Whitaker’s breed cattle with high natural resistance to buffalo fly and stud cow groups are kept separate for straight breeding purposes. The Charbrays are made up of the traditional Classic Charbray content cattle of 50% Charolais, 50% Grey Brahman. The Charolais herd is highly productive and incorporates a strong polled influence. Whilst the Grey Brahman herd is predominantly horned, the Red Brahman herd has a strong polled influence and will continue to be developed that way.

To the future the Whitaker’s aim to continue to produce commercially orientated cattle, able to adapt to any environment including country type and seasonal variances. They also plan to continue this Monto sale as an annual event and welcome feedback on how they can ensure customer expectations are met.

Lucky Bull Draw

Successful purchasers of any bulls in this year's sale will go in the draw to win a bottle of our specialty "Burnett Park Blend Premium Bundaberg Rum" valued at \$125.
