# WELCOME TO OUR ANNUAL ROMA BULL SALE

## Celebrating 50 Years of Excellence in Charolais Seedstock Production!

Since 1974, Glenlea Beef has been at the forefront of Charolais breeding in Australia, driven by a vision to maximise beef production through superior genetics. As we celebrate half a century of continuous innovation and dedication, our commitment to enhancing productivity remains unwavering.

From our humble beginnings, Glenlea Charolais has navigated both prosperous and challenging times with resilience and ingenuity. A significant milestone in our journey was the acquisition of the entire herd of Fairfield Charolais females from Lindsey and Belinda Hindle in 2021, expanding our herd to 1,000 cows. Today, our annual bull sales in Winton, Clermont, and Roma are a testament to our focus on CENTRAL and NORTHERN QUEENSLAND, allowing us to take our bulls to our clients!

### Why Choose Charolais Bulls?

Charolais bulls offer unparalleled growth and carcass yield, translating to higher returns for your calves in the market. They reach weight specifications faster, saving on feed costs and providing flexible trading options. As bullocks, their exceptional growth rate ensures they meet weight specifications at milk and 2-tooth, further enhancing feed efficiency and enterprise options.

### The Glenlea Advantage

Investing in Glenlea bulls means choosing top-tier genetics that excel in all measurable growth traits. Our bulls are selected for natural doability over generations, featuring leading maternal genetics that add substantial value to your cow's production for years to come. Our commitment to quality is backed by objective data through BREEDPLAN EBVs.

### Unmatched Service and Guarantee

At Glenlea Beef, your satisfaction is paramount. We offer an uncomplicated guarantee: if you encounter any issues with your Glenlea bull, we will provide a replacement and cover the freight. With over 300 bulls produced annually, our priority is ensuring our bulls get your cows in calf. We also offer free delivery to all major centres in Queensland, from our bull base in Condamine.

### Value Added to Your Calves

Glenlea genetics deliver exceptional weight gain through performance-recorded traits and add genetic value to your retained heifers, providing lifetime returns. Soon, our progeny buyback program will offer additional market premiums, ensuring continued value from Glenlea genetics.

### Looking Ahead

The future of Glenlea Beef is bright. We are in the final stages of developing a program to purchase back progeny from our clients, supporting a branded beef initiative. This upcoming program will allow us to offer market premiums for your Glenlea-sired progeny through your agent.

Experience the Glenlea difference and elevate your cattle operations with our unparalleled expertise and trusted Charolais genetics.

Regards,

Roderick Binny

Lindsay Hindle and Roderick Binny at Winton Bull Sale 2021. With the purchase of the Fairfield herd in late 2021, the Hindle's Fairfield Herd is now part of Glenlea Beef.

# ROMA BULL SALE

# Conditions of Sale

**INSPECTIONS:** Bulls will be available for group inspection at Roma Saleyards from 12noon on Tuesday 17th September and penned individually or in pairs from 9am Sale Day Wednesday 18th September.

**BULL HEALTH AND FERTILITY:** All bulls have been vaccinated for 3 germ blood, 3 day, botulism and 7 in 1. Bulls have all been semen tested, for motility and morphology.

**GUARANTEE:** All bulls are guaranteed to be able to serve cows naturally at the time of sale and are guaranteed for 6 months from sale day. If a bull should prove infertile or unable to serve cows naturally, provided the inability not caused by injury or disease contracted after sale, the bull will be replaced with a bull of similar quality or credit given for another of our sales by discussion with purchaser. Less salvage value of the bull.

**INSURANCE:** We recommend you insure your new bulls. Elders can arrange this at fall of hammer sale day.

**AGENT REBATE:** A rebate of 2% to all licensed agents is available, introducing buyers 24 hours prior to sale and settling accounts within 7 days.

**REFRESHMENTS:** Saleyards canteen will be operating on sale day.

**TRANSPORT:** Delivery will be coordinated by Elders Roma.

**PHONE BIDDING:** Phone bidding is available by contacting the agents or vendor prior to sale to arrange for a dedicated agent to call you and assist you with your bidding.

**ACCURACY OF CATALOGUE:** Every effort is made to be as accurate as possible. However mistakes can happen in the construction of catalogue and printing, we will resolve any issues at best as possible but make no warranty.

**CHAROLAIS BREEDPLAN:** We no longer print detailed explanations of BREEDPLAN in our catalogues. All information explaining BREEDPLAN and how to use it to help with your selections is available at the click of your mouse. Of particular relevance is that Charolais EBV's can only be compared within the Charolais breed. For instance, the average 600 Day weight EBV in Charolais is +33kg for the average for Angus is +110kg. This is not a reflection of Angus having a higher 600-day growth, rather they have a much lower base breed growth and an average animal needs a 600 weight above the base of +110kg above the base of Angus where as Charolais are a much higher growth breed that has a higher base weight, therefore an average Charolais only needs to be +33kg above the base to be average for the Charolais breed. This is often confused when trying to compare breeds and performance. The key point is don't compare EBV's across breeds as they are only able to comparable within each breed.

Next Glenlea Sale ...

**“Heart of the Herd” Female Sale**

**100 Charolais Females - 21st February 2025**

**Can't make the sale?**

# Glenlea Beef: Background, Bloodlines, Breeding Strategy & Customer Service

I've witnessed firsthand how Australian Charolais breeders have embraced performance recording, setting us apart from other countries that have reduced their efforts. My experiences in North America have shown me the superior accuracy and detail of our data, **making Australian evolved genetics the best in the world for advancing your herd. These genetics are specifically tailored to our environments and markets**, with extensive individual data helping us, as seedstock producers, identify positive influences.

Glenlea Beef has grown into a significant seedstock enterprise, now totalling 1,000 Charolais females, including the acquisition of the Fairfield herd in 2021. Over the past decade, we have been using **Australian-bred sires** to further evolve our herd, as they are best adapted to our country and markets.

Our herd's **genetic base** is now as diverse as the breed in Australia, incorporating a blend of many bloodlines and different phenotypes to produce an Australian type Charolais. At the heart of our program are several Glenlea cow families with origins dating back over 40 years, whose descendants can be found not only in our herd but in many studs throughout the country. This diversity allows us to meet the demands of various markets and geographical areas, from higher growth and yield types for northern markets over Bos indicus cows to more moderate, early maturing types. Our catalogue comments and EBVs on individual lots will highlight these variations, ensuring you find the right fit for your operation.

**Our breeding strategy** focuses on producing powerful performance cattle with a medium to moderate frame score and a complete carcass. This means achieving above-average yield, EMA, fat cover, and IMF%. We measure birthweights to help our bull clients make the best selections for their operations, maintaining calving ease through BW and early gestation length.

We prioritise **maternal strength**, focusing on fertility, milking ability, great udders, and moderate-sized teats for longevity. Although Charolais is primarily a terminal breed, especially in northern markets, Charolais x heifers are retained in their thousands. As seedstock producers, we always keep our customers—and their customers—in mind when making breeding decisions, as these decisions ripple down the supply chain with significant impacts.

**Polled genetics** in our breed have progressed to match horned bloodlines for every economic trait. While our herd still includes a number of horned females, these are joined with homozygous polled sires. Over the last five years, 98% of our calves have been polled, many homozygous, with all testing results available in our catalogue or supplementary sheet.

**BREEDPLAN** is a genetic evaluation tool that has been proven over 30 years across many breeds and countries. While we no longer print detailed general explanations in our sale catalogues, this information is readily accessible online. We are happy to explain any finer points of EBVs as they relate to the Charolais breed and our cattle—just call and ask! Each lot's comments include our summary of the printed EBVs.

**Customer service** is at the heart of Glenlea Beef. We spend much of our time traveling to visit both commercial and stud clients, offering a full range of services. Your success is our success. We provide many services to all our clients, from basic support to full stud breeding and marketing assistance. We are here to help you achieve the highest possible price for your Glenlea-sired stock, working closely with you and your agents.

**For more information about Glenlea Beef, please contact Stud Principal Roderick Binny 0409 911 791**

---

**Glenlea Cute (PP) R/F sired by Eldridge Lord with several brothers in this sale. Top Priced female at our 2024 Autumn Extravaganza female sale selling for \$7500 to Burravale Charolais, the Dickson Family, Biloela QLD.**

---

**Donor prospect female by Glenlea Just Red with lot 1 and 2 being paternal brothers to this female, out of Donor, Glenlea Janet L34 (P). The “Janet’s” are one of our oldest and most prolific cow families at Glenlea with 40 plus years of breeding history.**

---

**Donor prospect female by Silverstream Holster out of Donor, Glenlea Janet Z8 (P) R/F. Another member of the “Janet” cow family.**

---

**Dam of Lot 5**

**ADVANCE KODY K13 (P) (R/F)**

**ADV K13E**

**SIRE:** ADVANCE GRANDSLAM G47 (ADV G47E) (P)

**DAM:** ADVANCE GINA B21 (R/F) ADVB21E (H)

**COMMENTS:**

Big strong Polled sire that has produced many great bulls in the Fairfield herd. High growth progeny with good bone, slick skin and fine hair, with great carcass and ability to finish.

Sire was a champion at EKKA and a very high growth bull. Dam was from the royal show Champion Gina cow family.

EBVs Top 1% of the breed for all growth traits, Top 10% of breed EMA, top 15% Beef Yield and IMF%.

**SIRE:** PARINGA RIO BRAVO D213E (TOL D213E) (P)

**DAM:** ELRIDGE HARMONY (RUU H14E)

**COMMENTS:**

Trait leading sire for growth, fat cover with moderate BW and excellent EMA.

Progeny are docile and can finish at any age so have great market versatility. Really breaks the rules in opposing traits of growth and finish.

His daughters are coming through with perfect udders, extra growth and plenty of milk. Top 1% all growth traits, Top 10% Fat Cover.

**DAM:** GLENLEA JANET U6E (GLE U6E) (R/F) (P) (TW)

Photo at 7 years running with cows.

**COMMENTS:**

The original GLENLEA RED sire.

Homozygous Red and Polled, his progeny are all apricot colour and polled out of white charolais cows.

His genetic value goes far beyond hide colour, a trait leader for all growth traits, with very positive fat cover so progeny fatten quickly.

**July 2024 Australasian Charolais BREEDPLAN Analysis**

Acc	69%	64%	64%	62%	54%	45%	62%	45%	50%	43%

DNA Sire Verified

DNA PP POLLED

**COMMENTS:** Titan is a bull many have admired. **Sire prospect performance bull whose progeny will fit all markets.** Easy doing, deep bodied, excellent finish and overall carcass. Sired by our benchmark sire "Just Red" who is a trait leader for 400- and 600-day weight. His Dam also had a lot 1 bull in our 2022 Roma sale who sold for \$20,000, we have retained her daughters and still producing, about to calve again at 13 years old. *EBV's Top 3% of breed for all growth traits, Top 20% milk, and all positive carcass traits with carcass weight almost double breed average!*

## Lot 2

# GLENLEA JR T243 (P) (R/F)

TATTOO: GLE 22T243E

EBV	+2.5	+14	+27	+31	+39	+3	+0.2	+2.0	+0.4	+0.2

DNA Sire Verified

DNA PP POLLED

**COMMENTS:** Our Just Red sons have been consistently outstanding. JR T243, another **sire prospect**, is extra long bodied, great carcass, good bone, fine hair type, with excellent temperament. Dam is a powerful cow with extra volume and carcass. Her first daughter sold recently at our Autumn female sale for \$6000. This bull had a setback post weaning and so we have presented his EBV's as mid parent as he was held back from his mob. He has been powering in weight gain since preparation started reflecting his true potential. *EBV's all growth above average, all carcass traits well above breed average.*

## Lot 3

### DNA PP POLLED

**COMMENTS:** Class bull that could have been in the first dozen lots. Extra length, well finished carcass with good easy fleshing muscling, slick skin, good bone and wide natural stance through the chest. Sired by Just Red (Reference sire). Brother to lot 1 and lot 2. He is red colour but has gone lighter to more straw as he has matured, but definitely carries the red gene. **Progeny will suit all markets.**

*EBV's Top 5% all growth traits and IMF, Top 10% EMA and top 25% fat cover*

### July 2024 Australasian Charolais Single-Step BREEDPLAN

	BW	200	400	600	MCW	Milk	SS	EMA	Rump	IMF
EBV	+2.8	+15	+33	+50	+56	+6	+1.7	+1.7	+1.2	+0.2
Acc	58%	56%	58%	64%	53%	42%	53%	45%	46%	44%

**COMMENTS:** Extra carcass yield in this bull, early maturing. As stated for previous lot, had set back post weaning. **Progeny suit all markets.**

*DNA Poll test result in supplementary sheet prior to sale.*

*EBV's top 15% 400- and 600-day weight, all above average carcass traits.*

END OF SALE

The Dockrill family are an integral part of Glenlea Beef and provide a range of services, from feeding and showing our cattle, preparing bulls for our range of bull sales, marketing photos, clipping and video taking, production and editing. Additionally an increasing amount of private bulls directly from their Casino, NSW property.

All the rest of the Glenlea Beef team thank them for all their support, input and hard work without which Glenlea Beef could not operate in the way it does currently.
